

Our Vision

Since 2009, the Northwest Food Partners Network has sought to ensure that every resident of Chicago's Northwest side always has access to quality, nutritious food. To do this, NFPN works to increase our member organizations' capacity to serve their communities. We also partner with external stakeholders and provide a platform for resource sharing and collaborative anti-hunger programming.

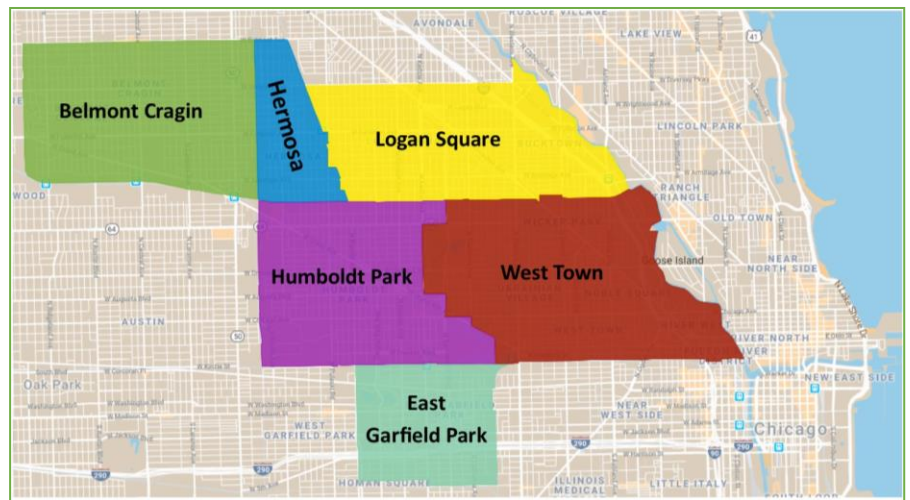

Our Focuses

1. Capacity Building
2. Fundraising and Food Resources
3. Outreach and Networking
